

NICC BUILDING TRADES CONSTRUCTION PROJECT

The Northeast Iowa Community College Peosta Campus invites interested individuals to submit plans and specifications for a single-family structure of which only selected units will be constructed by students in the Building Trades programs during the 2018-2019 school year.

Applicants must provide a building lot and assume responsibility for all construction materials and associated costs. There will be no charge for student labor and/or supervision. Construction will commence in July 2018 and conclude about May 2019. Tool and equipment repair costs will be computed based on square footage of the house. All applications and related information **must be submitted in a sealed envelope and delivered to the office of Chris Carlson, Dean of Career and Technical Education, in the Industrial Technology Building on the Peosta Campus no later than Noon (CST) on Monday, March 26, 2018**, and will be evaluated thereafter.

Each applicant agrees, by submission of their application, that it shall not be withdrawn for a period of 30 days after March 26, 2018. Complete details concerning the construction project, application requirements, deposit and other matters can be obtained by contacting Eileen Schlawin, Career and Technical Education Administrative Assistant, at 800.728.2256, ext. 242, or Terry Burds, Peosta Carpentry Instructor, at 800.728.7367, ext. 238.
